VI. Custom Calling Services

Custom Calling Features are offered subject to availability from the underlying carrier:

A. Call Forwarding

Call Forwarding allows for the automatic forwarding (transfer) of all incoming calls to another telephone number. The line can be restored to normal operation at any time.

Busy Call Forwarding allows the forwarding of incoming calls when the line is busy. The forwarded number is fixed by the service order.

Delayed Call Forwarding allows the forwarding of incoming calls when the line remains unanswered after a present number of rings. The number of rings and the forwarded number are fixed by the service order.

Select Call Forwarding allows the automatic forwarding (transfer) of calls from up to ten preselected numbers to another telephone number. The line can be restored to normal operation at any time.

Remote Access Call Forwarding allows the activation and deactivation of the Call Forwarding feature and changes to the forwarded number to number from a location other than where the service is located.

B. Call Waiting

Call Waiting sends a tone signal while a call is in progress to indicate a second call is waiting; and by operation of the switchhook, to place the first call on hold and answer the waiting call. Operation of the switchhook permits passage back and forth between the two calls, but a three-way call cannot be established.

Cancel Call Waiting allows the dialing of an activation code prior to making a call, to cancel the Call Waiting feature. Cancel Call Waiting must be activated each time Call Waiting is canceled.

VI. Custom Calling Services (cont'd)

C. Three-Way Calling

Three-Way Calling allows the addition of a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The initiator of the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. This feature may be used on both incoming and outgoing calls.

D. Priority Ringing

Priority Ringing differentiates incoming calls from up to ten preselected telephone numbers by signaling with a distinctive ringing pattern.

E. Repeat Dialing

Repeat Dialing allows calls to be automatically redialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the originating telephone line with a distinctive ringing pattern when the busy number and the originating line are free.

F. Call Screening

Call Screening allows the automatic blocking of incoming calls from up to ten preselected telephone numbers. The list of number can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply.

VI. Custom Calling Services (cont'd)

G. Call Return

Call Return allows the return of a call to the last incoming call whether answered or not. Upon activation, it will redial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. A distinctive ringing pattern signals when the busy number is free. When answered, the call is then completed. The calling party's number is not delivered or announced to the call recipient.

Rule 24 – Discounts for Qualifying Public Service Agencies

A. Availability of Discounts Under CTF

In Decision 96-10-066, the California Public Utilities Commission (CPUC) established the California Teleconnect Fund (“CTF”). CTF provides discounts on telecommunications services delineated herein, among other detariffed and unregulated services, to qualifying schools, libraries, hospitals and health clinics, community based organizations and California community colleges, approved by the CPUC, as described below. Federal funding or subsidy given to CTF participants for CTF eligible services shall first be taken into account prior to applying the CTF discount. If state funding for the CTF is exhausted, participants will be backbilled for all discounts advanced by the Company.

1. Entities Qualified to Receive Discounts Under CTF

The following entities are qualified to receive CTF discounts upon approval by the CPUC:

a. Schools.

Public and non-profit schools providing elementary or secondary education, which do not have endowments of more than \$50 million.

b. Libraries.

Libraries that are eligible for participation in state based plans for funds under Title III of the Library Services and Construction Act.

c. Hospitals and Health Clinics.

Hospital district owned hospitals and health clinics, municipal and county government owned and operated hospitals and health clinics.

d. Community Based Organizations (CBOs).

Tax exempt organizations offering Head Start programs, health care, job training, job placement, educational instruction, or a non-profit CBO operating a community technology center engaged in diffusing technology into a local community, and training a local community that has limited or no access to the Internet and other technologies shall qualify for the discount rate for CBOs or a non profit CBO providing 2-1-1 information and referral services. A “tax exempt organization” shall refer to an organization described in Section 501 (c) (3) or 501 (d) of the Internal Revenue Code, Title 26 of the United States Code.

3. Discounts Applicable to Eligible Services

a. Hospitals and Health Clinics

Participating hospitals and health clinics shall be entitled to a 50% discount off the entire tariffed and/or Guidebook rates or negotiated/contract rates, whichever are lower, for services identified in paragraph 2 preceding.

b. Schools and Libraries

Participating schools and libraries shall be entitled to a 50% discount off tariffed and/or guidebook rates or negotiated/contract rates, whichever are lower, for services identified in paragraph 2 preceding, after first deducting the applicable E-rate discounts. The 50% discount shall be calculated as follows:

(1) If the customer has not been approved to receive E-rate discounts, whether or not an application is pending, the 50% discount will be applied to all services (eligible for CTF) after deducting a statewide average E-rate discount (determined by the CPUC) from the billed amount.

(2) If the customer has been approved to receive E-rate discounts, the 50% discount will be applied to the services after deducting the actual E-rate discounts from the billed amount.

(3) The statewide average discount is deducted from the customer's services solely for purposes of calculating the CTF discount. The statewide average discount shall be added back to the billed amount for payment by the customer. However, when the customer receives its approved E-rate benefit, the customer's account will be retroactively adjusted to reflect the approved E-rate. The following schools and libraries shall be entitled to a 50% discount off the entire tariffed and/or Guidebook rates or negotiated/contract rates, whichever are lower, for services identified in paragraph 2 preceding: small schools as defined in Section 42283 of the Education Code, participants whose E-rate applications have been denied, and participants who subscribe to services that are ineligible for E-rate discounts.
