

POTS Transformation

Transform copper lines to the digital age.

As carriers are retiring copper voice infrastructure and support, costs are skyrocketing. For example, month-to-month rates have increased by over 500% in the past five years in some areas of the U.S. At the same time that costs are increasing, service is deteriorating. Copper line repairs are not prioritized by carriers, SLAs have been eliminated and the time to install new copper lines in some states is 120 days. It's clear that companies must find a path towards digital transformation.

MetTel's POTS Transformation allows you to completely transform all traditional phone lines for voice and data services that require an analog dial tone, providing cost savings and reliability—all managed by a 2x Gartner® Leader in Managed Network Services.

Digitally Transform

Fax

Security Alarms

Fire Alarms

Elevators

POS Terminals

Vending Machines

ATM Machines

POTS

Key Benefits

MULTI-WAN ACCESS

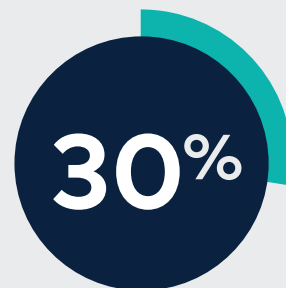

- Connect landline, wireless & Wi-Fi
- Multi-carrier access & dual SIM capable
- Business continuity, even during network outages
- Prequalification of LTE coverage in your area

TURN-KEY SOLUTION

- Largest inventory of managed equipment
- Nationwide, professional installation & experienced porting team
- Project managed by certified PMPs
- Acceptance testing at every site

FULLY MANAGED SERVICE

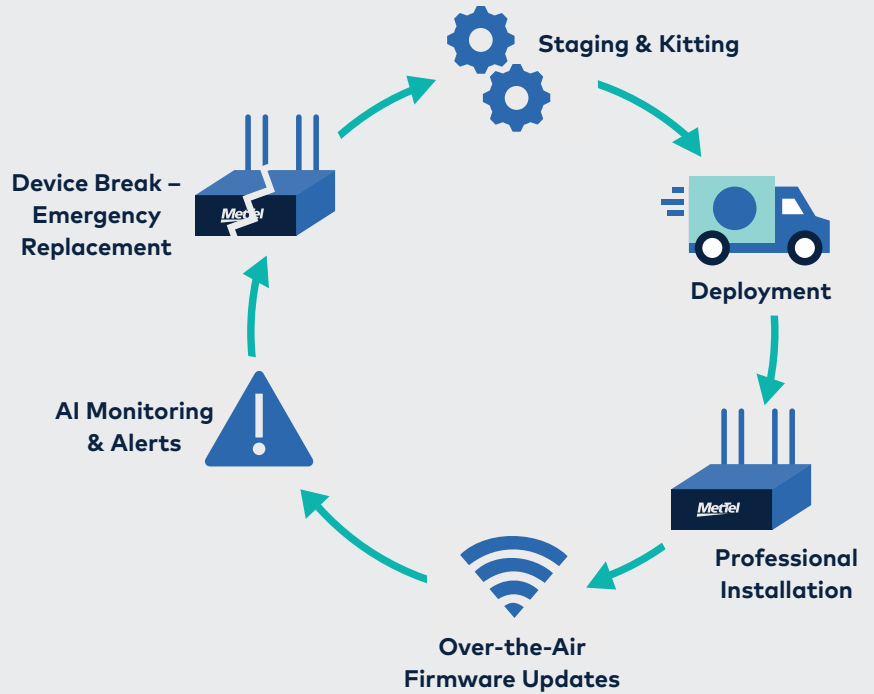

- 24/7/365 NOC & AI-powered monitoring & alerts
- Remote firmware updates
- Break/fix with emergency replacement
- Improved SLAs compared to TDM SLAs

Estimated Cost Savings 30%
Immediate & Year-to-Year

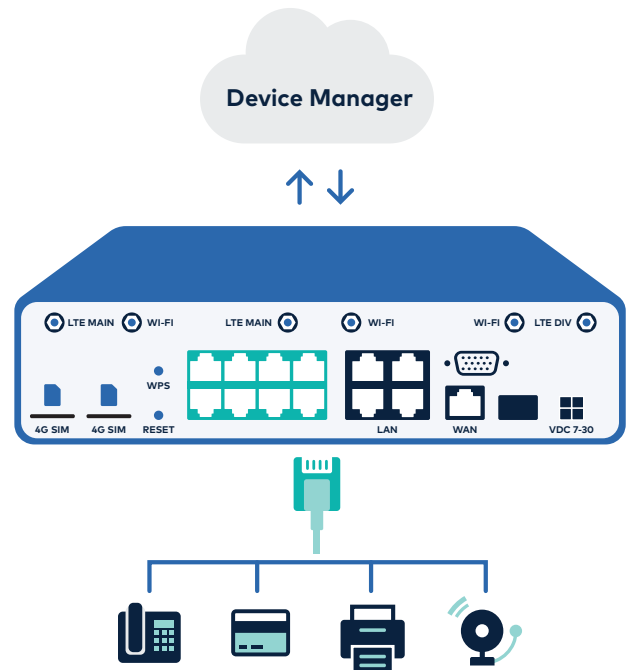

Fully-Managed Service

MetTel oversees the entirety of your POTS Transformation process. As a 2x Leader in Gartner's Magic Quadrant™ for managed network services, you can trust us from planning to deployment to replacement.

Specifications of CDS 90XX

- Connect with broadband, 4G LTE, and/or Wi-Fi
- Cellular can be the primary connectivity if Wi-Fi or broadband are not available, or act as a backup in the event of primary circuit failure
- Dual SIMs provides added fail-over protection
- Handles up to 8 lines including voice, fax, elevator and alarm lines
- Up to 24-hour battery backup
- POTS Transformation is a NFPA 72 fire code compliant solution, holding UL 60950-1 & UL 2054 listings

Voice Calling Features

BASIC FEATURES

- Call logs
- Caller ID
- Series completion (hunting)
- Call waiting
- Call ID blocking
- E911

ADD-ON FEATURES

- Auto-attendant
- True hunting
- Voicemail
- Three-way calling
- Flash call hold
