# Remote Learning Solutions

## Secure Devices & Reliable Networks for Successful K-12 Remote Learning

As the new school year approaches, K-12 educators are tasked with finalizing remote learning plans amidst the ongoing COVID-19 pandemic. Collaboration apps like Google Classroom and Zoom for Education are key to these remote learning plans. Yet, equipping students with the devices and reliable networks they need brings big challenges.

**MIFI DEVICE**

**CELLULAR-ENABLED TABLET**

**CHROMEBOOK**

## MetTel Provides

1. **MiFi Devices or cellular-enabled Chromebooks or Tablets**
   Enabling students to access curriculum without Wi-Fi.

2. **Procuring, Configuring & Rolling-out Devices**
   Efficient procurement, configuration, and deployment of Chromebooks/laptops and tablets to ensure that software is up-to-date and ready to be used by all students.

3. **Security & Compliance**
   SD-M that enforces controls so students can securely access approved content on school-owned devices while restricting unwanted browsing and app activity.
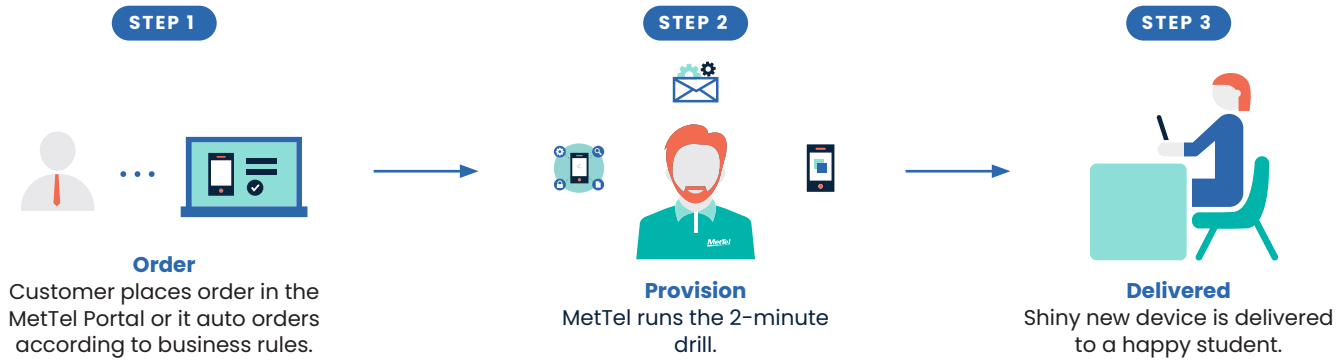

## 61%
of nearly 7.7 million enterprise malware encounters reported in the past month came from those in the education sector, making it **the most affected industry.**

# MetTel's Deploy Process

MetTel handles all staging, kitting and preconfiguring of devices so they arrive to your students ready to use.

**STEP 1**

### Order
Customer places order in the MetTel Portal or it auto orders according to business rules.

**STEP 2**

### Provision
MetTel runs the 2-minute drill.

**STEP 3**

### Delivered
Shiny new device is delivered to a happy student.

## ADD-ON: PROTECT

Accidents will happen! MetTel provides a fully managed protection and replacement program.

**STEP 4**

### Oops!
Student breaks the device.

**STEP 5**

### Delivered
MetTel sends out an overnighted replacement device fully configured.

**STEP 6**

### Ready
Student is up and running with a secured device next day.

## ADD-ON: SD-M

Control and secure students' devices at the network level—even MiFi devices!

**Secure Your LTE Network**
Protect your data from a higher level, without installing an app.

**Get Data Insights**
See which apps are draining data and increasing your costs.

**Control Usage & Reduce Costs**
Enforce corporate policy and block unwanted data consumption.

SD-M Protected Device

Approved apps & websites only

Non-compliant apps & websites blocked
