The Company is responsible under this product guide only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services or to communicate with its own customers.

2.1.2 Shortage of Equipment or Facilities

The furnishing of service under this product guide is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as the facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.

2.1.3 Terms and Conditions

2.1.3.1 Except as otherwise provided herein, service is provided on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer, via telephone or in writing, on not less than 30 days notice. Unless otherwise specified herein, for the purpose of computing charges in this product guide, a month is considered to have 30 days. All calculations of dates set forth in this product guide shall be based on calendar days, unless otherwise specified herein.

2.1.3.2 Customers may be required to enter into written Service Orders which shall contain or reference the name of the customer, a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this product guide.

Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this product guide prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

2.1.3.4 This product guide shall be interpreted and governed by the laws of the State of South Carolina without regard for its choice of laws provision.

The Company may require the Customer to demonstrate its compliance with this section prior to accepting any order for service;

(e) providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company's employees or property might result from installation or maintenance by the Company. (g) not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities; and

(h) making Company facilities and equipment available periodically for maintenance purposes at a time agreeable to both the Company and the Customer. No allowance for interruptions in service will be made for the period during which services are interrupted for such purposes.

In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance.

SECTION 2 - REGULATIONS (continued)

2.4 Customer Equipment and Channels (continued)

Within ten days of receiving this notice, the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment, and personnel from harm. The Company will, upon a request from the customer 24 hours in advance, provide the Customer with a statement of technical parameters that the Customer's equipment must meet.

Any taxes imposed by a local jurisdiction (e.g., county and municipal taxes) will only be recovered from those Customers located in the affected jurisdictions.

2.5.1.1.1 Other Charges

It shall be the responsibility of the Customer to pay any such taxes that subsequently became applicable retroactively.

2.5.2 Billing and Collection of Charges

2.5.2.1 All service, installation, monthly Recurring, and Non-Recurring Charges are due and payable upon receipt.

2.5.2.2 The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in such service is provided.

2.5.2.3 For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rated basis. For this purpose every month is considered to have 30 days.

2.5.2.4 A check return charge will be assessed for checks with insufficient funds or non-existing accounts.

SECTION 2 - REGULATIONS (continued)**2.5 Payment Arrangements (continued)****2.5.3 Disputed Bills**

2.5.5 Deposits

2.5.5.1 Applicants for service or any existing Customer whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company a security deposit. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:

- (a) two month's charges for service or facility which has a minimum payment period of one month; or
- (b) in accordance with 26 S.C. Code Ann. Regs. 103-621.2 (Supp. 1999).

- 2.5.6.2 Upon violation of any of the other material terms or conditions for furnishing service, the Company may, by giving 30 days prior notice in writing to the Customer, discontinue or suspend service without incurring any liability, if such violation continues during the 30 day period.
- 2.5.6.3 Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- 2.5.6.4 Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, failing to discharge and involuntary petition within the time permitted by law, or abandonment of service, the Company may, with prior notice to the Customer, immediately discontinue or suspend service without incurring any liability.

2.5.6.6.5 Upon five (5) days written notice, excluding Sundays and holidays, for non-payment of a bill for service.

2.5.6.7 The suspension of discontinuance of service(s) by the Company pursuant to this Section does not relieve the Customer of any obligation to pay the Company for charges due and owing for service(s) furnished during the time of or up to suspension or discontinuance.

2.5.6.8 Upon the Company's discontinuance of service to the Customer under section 2.5.6.1 or 2.5.6.2, all applicable charges, including termination charges, shall become due. 2.6 Allowances for Interruptions in Service

2.6.1 Credit for Interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption, whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's product guides. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on pro-rata basis against the rates specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up at the next whole 24 hours.

2.6.2 Limitations on Allowances

SECTION 3 - SERVICE DESCRIPTIONS (continued)**3.1 Local Exchange Service (continued)**

3.1.3 Usage Rates: All Local Exchange Service Customers must order service on a per minute usage basis. Following are three (3) calling options. These rates will apply to all outgoing direct-dialed calls placed to Stations within the caller's local exchange area, as defined herein.

Option 1

Option 1 rates are postalized rates (single rate) regardless of the mileage associated with an intraLATA call. There is a peak and off-peak rate (see following for definition of peak & off-peak). Option 1 Toll Rates mirror the Customer's Local Service usage rates. Therefore, the customer is billed one rate for both local and interLATA calls.

Option 2

Option 2 establishes postalized peak and non-peak rate for all non-local calls.

Option 3

Option 3 establishes a peak/non-peak rate based upon the Customer's dialing pattern. For example, all calls made within a LATA dialing seven (7) digits will have a distinct rate from those calls made within a LATA dialing eleven (11) digits.

3.1.4.1 Per Minute Usage Rate: Rates are set forth in Section 7.

SECTION 3 - SERVICE DESCRIPTIONS (continued)**3.1 Local Exchange Service (continued)****3.1.4 Timing of Local Exchange Calls**

Unless otherwise indicated, all calls are timed in six-second increments and all calls that are fractions of a minute are rounded up to the next six-second increment.

For station-to-station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

For person-to-person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

Call timing ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

3.1.4.2.1 Time Periods Defined

Peak: 8:00 a.m. to, but not including 5:00 p.m. - Monday through Friday

Off-Peak: 5:00 p.m. to, but not including 8:00 a.m. - Monday through Friday, all day Saturday and Sunday, and all Holidays.

Holidays include Christmas, New Year's Day, Thanksgiving, Independence Day, and Labor Day.

All times refer to local time.

SECTION 3 - SERVICE DESCRIPTIONS (continued)**3.2 Directory Assistance**

A Customer may obtain Directory Assistance in determining telephone numbers within its local calling area by calling the Directory Assistance operator.

This service provides a trunk side DS1 electrical interface from the customer's digital PBX system to a MetPath™ digital port on a local Company switch for the origination and termination of calls. Traffic to and from the digital PBX can be received or dialed directly from any PBX station without the need for an attendant.

These digital trunks deliver a high-speed DS1 (T1) connection between your PBX and the Company network. There are up to 24 channels on one facility, each of which can be used to place or receive calls. This multi-channel capability dramatically reduces the need for additional PBX circuit cards.

Each of these products is offered under a 12, 24 or 36 month term agreement. Rates include unlimited local calling for sent-paid, directly dialed calls. Rates do not include calling card calls, information type calls to Time and Weather, 555, 700, 900, 976 Services, Directory Assistance or any other type of Operator Handled call.

Regional Toll and Long Distance Services must be PIC'd to the Company. These rates are in addition to ISDN PRI and DS1 rates below.

SECTION 7 – LOCAL EXCHANGE SERVICES (CONT'D)**7.6 Advanced Services (Cont'd)****7.6.7. Direct Inward Dialing (DID) Service**

DID service is an optional feature which can be purchased in conjunction with Company-provided Basic Trunks or Digital Trunks. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. Charges for DID capability and DID numbers apply in addition to charges specified for Basic Trunks or Digital Trunks.

So the Company may efficiently manage its number resource, the Company, at its sole discretion, reserves the right to limit the quantity of DID numbers a Customer may obtain. Requests for 300 or more DID numbers must be provided to the Company in writing no less than five (5) months prior to activation. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine their utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers.

The Customer has no property right to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.
