TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.
- C. Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2  
2.1  
2.1.1  
2.1.1.(A)  
2.1.1.(A).1
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

3.3 Calculation of Distance (V&H) .....	30
3.4 Time of Day Rate Periods.....	31
3.5 Holiday Rates.....	31
3.6 Promotional Offerings .....	32

3.1 - GENERAL

3.1.1 Rates and timing of calls may vary by product type, time of day, day of week, call mileage, access method, terminating area, or call duration. Calls are billed individually and on a monthly basis. Usage is billed in arrears.

3.1.2 Intrastate services are offered in conjunction with interstate services.

3.2. - TIMING OF CALLS

3.2.1 Billing for calls placed over the network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- (A) Call timing begins when the called party answers the call (i.e., when two-way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- (B) Chargeable time for calls ends when one of the parties disconnects from the call.
- (C) Minimum call duration periods for billing purposes vary by service option.
- (D) For billing purposes, usage after the initial period varies by service and is specified by service in this tariff.

- (E) The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will reasonably issue credit for the call.

### 3.3 - CALCULATION OF DISTANCE ("V&H")

Usage charges for all mileage-sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The service wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the wire center of the Customer's equipment and that of the destination point is calculated by using the vertical ("V") and horizontal ("H") coordinates found in Bellcore's V&H Tape and NECA FCC Tariff No. 4.

Step 1 - Obtain the "V" and "H" coordinates for the wire centers serving the Customer and the destination point.

Step 2 - Obtain the difference between the "V" coordinate of each of the wire centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5. - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the wire centers.

Formula:

$$\text{Mileage} = \sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

### 3.4 - TIME OF DAY RATE PERIODS

- 3.4.1 The following rate periods apply to all service offerings and, unless otherwise specified, applicable rate periods (Day, Evening, Night/Weekend) are indicated in the chart below:

	MON	TUE	WED	THUR	FRI	SAT	SUN
8:00 AM TO 5:00 PM*	DAYTIME RATE PERIOD					EVE	
5:00 PM TO 11:00 PM*	EVENING RATE PERIOD (Non-Day)						
11:00 PM TO 8:00 AM*	NIGHT/WEEKEND RATE PERIOD (Non-Day)						

\* Up to, but not including

- 3.4.2 When a message spans more than one rate period, total charges for the minutes in each rate period are calculated and the results for each rate period are totaled to obtain the total message charge. If the calculation results in a fractional charge, the amount will be rounded up to the higher cent.

### 3.5 - HOLIDAYS AND RATES

- 3.5.1 The Company may designate certain holidays on which rates may be lower.
- 3.5.2 Company-recognized holidays are presented in Section 4, Page 33.

### 3.6 - PROMOTIONAL OFFERINGS

- 3.6.1 Promotional offerings are intended to be limited-duration programs, not to exceed three

hundred sixty-five (365) consecutive days, that are beneficial to the targeted and/or qualified customers. Promotional offerings are not intended to replace the Company's obligation to seek approval of permanent rates and charges.

- 3.6.2 The Company may, during promotional periods, offer customers special rate incentives. The Company shall notify the Director of the Public Utility Division, by letter, specifying the service(s) offered, terms of the promotion, location, and dates of each promotion period.
- 3.6.3 Promotional offerings of services that have been determined to be competitive shall become effective on the date specified in the Notice to the Director of the Public Utility Division, which may be dated no earlier than the date the Notice is provided to the Director of the Public Utility Division.
- 3.6.4 Notification of a promotional offering regarding a non-competitive service shall be provided fifteen (15) days prior to the initial offering of the campaign.
- 3.6.5 Any promotional offering of a non-competitive service found not to be in the best interest of the targeted and/or qualified customer(s) will be rejected by the Director of the Public Utility Division and returned to the Company with a brief explanation of the reason for the rejection. Notice of the rejection will be sent to the applicant within fifteen (15) days after the Commission's receipt of the notification letter.
- 3.6.6 Promotions may be repeated, provided the initial promotion and extension do not exceed three hundred sixty-five (365) consecutive days in length. If the promotion has been offered for three hundred sixty-five (365) consecutive days, then the same promotion cannot be offered for one hundred eighty (180) days from the date the promotion ended.
- 3.6.7 Promotions will conform to the requirements of OAC 165:56-5-9.

5.1 SERVICE OFFERINGS

5.1.1 Station-to-Station Dialing

The customer utilizes "1+" dialing, or "101XXXX" dialing followed by "1 + ten digits" for interLATA calls which is done through pre-subscriptions, or dials "101XXXX" followed by "1 + 7 digits" or "1 + 10 digits" for intraLATA calls which is done through "101XXXX" or other access codes.

5.1.2 Travel Cards

The Customer utilizes an 11 digit "toll-free" access number established by the Company to access a terminal. Upon receiving a voice prompt, the Customer uses push button dialing to enter an identification code assigned by the Company, and the ten digit number of the called party.

5.1.3 Toll free Service.

This service is inbound calling only where an 800, 888 or other toll-free prefix number rings into a Customer's premise routed to a specific telephone number or terminated over a dedicated facility.

5.1.4 The Company Prepaid Calling Cards.

This service permits use of the Company's Prepaid Calling Cards for placing long distance calls. Customers may purchase the Company Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. The Prepaid Calling Cards are available at a variety of face values ranging from five dollars (\$5.00), in one dollar (\$1.00) increments. Prepaid Calling Card service is accessed using the Company's toll-free number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. The Company's processor tracks the call duration on a real time basis to determine the number of Telecom Units consumed. The total consumed Telecom Units and applicable taxes for each call, are deducted from the remaining Telecom Unit balance on the Customer's Prepaid Calling Card.

All calls must be charged against a Company Prepaid Calling Card that has a sufficient Telecom Unit balance. A Customer's call will be interrupted with an announcement when the balance is about to be depleted.

When the balance is depleted, the Customer can either call the toll-free number on the back of the Company's Prepaid Calling Card and "recharge" the balance on the card using a nationally recognized credit card, or the Customer can throw the card away and purchase a new one. Calls in progress will be terminated by the Company if the balance on the Prepaid Calling Card is insufficient to continue the call.

A card will expire on the date indicated on the card, or if no date is specified, 6 months from the date of purchase, or the date of last recharge, whichever is later. The Company will not refund unused balances.

A credit allowance for the Company's Prepaid Calling Card Service is applicable to calls that are interrupted due to poor transmission, one-way transmission, or involuntary disconnection of a call. To receive the proper credit, the Customer must notify the Company at the designated toll-free customer service number printed on the Company's Prepaid Calling Card and furnish the called number, the trouble experienced (e.g. cut-off, noisy circuit, etc.), and the approximate time that the call was placed.

When a call charged to the Company's Prepaid Calling Card is interrupted due to cut-off, one-way transmission, or poor transmission conditions, the Customer will receive a credit for each Telecom Unit dedicated for the call.

Credit allowances for calls pursuant to the Company's Prepaid Card Service do not apply for interruptions that are due to the failure of power, equipment or systems not provided by the Company.

Credit for failure of service shall be allowed only when such failure is caused by or occurs due to causes within the control of the Company.

The Company will block all calls beginning with the NPA "900" and NXX "976" calls, therefore such calls can not be completed.

### 5.1.5 Local Calls and Directory Assistance.

Local calls will not be accepted or completed. The Company does not provide local directory assistance.

Access to long distance directory assistance is obtained by dialing 1 + 555-1212 for listings within the originating area code and 1 + (area code) + 555-1212 for other listings. A customer may request two numbers in a single call.

Additionally, at the time the OUSF Monthly Recovery Charge is changed and notification is given to the Directory of the Public Utility Division, backup information and documentation is to be made available.
