

MetTel Mobile Secure

Enhanced Mobile Threat Defense

Mobile devices are NOW a top target for cybercriminals. For businesses with remote and hybrid workforces this can lead to costly data breaches. MetTel's Mobile Threat Defense delivers enterprise-grade security through a multi-layered approach ensuring both networks and devices are protected. It provides real-time defense against malware, phishing, and zero-day threats - without compromising user experience or productivity.

75% of employees access sensitive corporate data through their smartphones*
