Each local call is charged on a message unit basis and an additional charge is made for local messages in excess of the allowance. The allowance, if not used during one month, is not credited to the customer's account for any other month that service is provided.

All Areas w/Hunting	\$246.44

(I)
(I)

¹ Term Plan Discounts of 19%, 24% & 28% apply for 12, 24, 36 month terms respectively.

Local Message Allowances and Charges

The monthly rates for usage packages associated with message rate services include the number of local messages specified below:

Monthly Call Allowance 73

The current charge per additional local message is \$0.08

The maximum charge per additional local message is \$0.08

3. Standard Business Local Exchange Service, (cont'd)

3.1 AT&T Calling Areas, (cont'd)

B. Measured Rate

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

(1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.

(2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.

(3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.

(4) Chargeable time does not include time lost because of faults or defects in the service.
