

High Speed Satellite Broadband

MetTel is an Authorized Starlink Reseller

Connect From Anywhere

Businesses and government agencies need access to high-speed, low latency internet from anywhere, even on-the-go. Starlink high speed satellite broadband services via Low Earth Orbit (LEO), high capacity satellites can be used as a reliable primary connection for remote locations, mobile applications, or as a resilient internet backup source.

MetTel is an Authorized Starlink reseller for both Enterprise and Federal Agencies. As a leading Managed Network Services provider, MetTel can integrate Starlink with other necessary network products based on customer requirements and provide ongoing support.

Why Starlink With MetTel

- ✓ Ready-to-ship inventory of Starlink models for rapid deployment
- ✓ Optional professional services, including: site survey, dedicated project management, installation, and on-site repair are available
- ✓ 24/7/365 US-based live customer support
- ✓ One consolidated bill, no credit card required
- ✓ Financing options available for both installation and Starlink equipment costs
- ✓ Industry-exclusive reports and state-of-the-art executive dashboards
- ✓ Combine Starlink with MetTel's managed SD-WAN solution for enhanced network protection and stability
- ✓ Experts in total solutions for multi-site, multi-product applications
- ✓ Streamlined bulk terminal management without individual device logins or frequent password resets
- ✓ Highly Secure, Multi-Tenant management dashboard for multiple users with 2FA

Starlink Features

- Dependable, high speed internet for: rural and hard to reach locations, on-the-go vehicles, temporary retail/healthcare/tradeshow sites and open areas, large construction projects, and more
- Optimized and prioritized traffic for speed and performance
- Always-on, unlimited high-speed internet connectivity
- Low latency: 25ms-50ms
- Download speeds between 40 and 220 Mbps (majority of users experience speeds over 100 Mbps)
- Upload speeds typically between 8 and 25 Mbps
- Includes indoor unit and outdoor dish

Connectivity When You Need It Most

MetTel's Emergency Starlink Kit is trusted by Enterprise and Government to rapidly deploy emergency connectivity.

- Easily ship or transport to any location
- Durable case with wheels and pull handle for easy transport
- Can be set up in a matter of minutes to support:
 - Disaster response
 - Construction sites
 - Temporary loss of Internet

Local Service

KEY FEATURES

- ✓ "Locked" to a single country
- ✓ Fixed site use cases, on land
- ✓ Land mobility use cases, in motion
- ✓ Works on inland waters*

*The boundary between land and ocean is ~1/3 mile

Global Service

KEY FEATURES

- ✓ Works anywhere in the world where Starlink is available (not "locked" to a country)
- ✓ Maritime use cases - territorial waters
- ✓ For use in multiple locations, fixed or in motion
